

SOUTH WASHINGTON NATURAL GAS PROJECT

VIRTUAL OPEN HOUSE FLYER
MARCH 2022
MINNESOTA

YOU'RE INVITED TO OUR VIRTUAL OPEN HOUSE

How to Join the Virtual Open House

To learn more about project construction in 2022 please join us online or via phone.

Date: Wednesday, April 13, 2022

Time: 6 p.m. – 7 p.m.

Join online: [XcelEnergySouthWashingtonProject.com](https://www.xcelenergy.com/south-washington-project)

Dial-in number: 855-962-1519

Can't make it? We'll post the virtual open house presentation on our website following the live event.

Overview

We are replacing 5.5 miles of natural gas lines along with multiple natural gas regulator stations to regulate natural gas pressure for the South Washington Natural Gas Project. Construction began in spring 2021 and is expected to be completed in fall 2022.

This work is our commitment to system revitalization, allowing us to continue to provide you safe, reliable service.

Schedule

2022 is the final year of the project. Construction will occur in the following areas:

- Hastings Avenue, between Gary Boulevard and 1st Street.
- Belden Boulevard, between West Point Douglas Road and Hadley Avenue.
- East Point Douglas Road, between 90th Street and East Point Douglas Road.

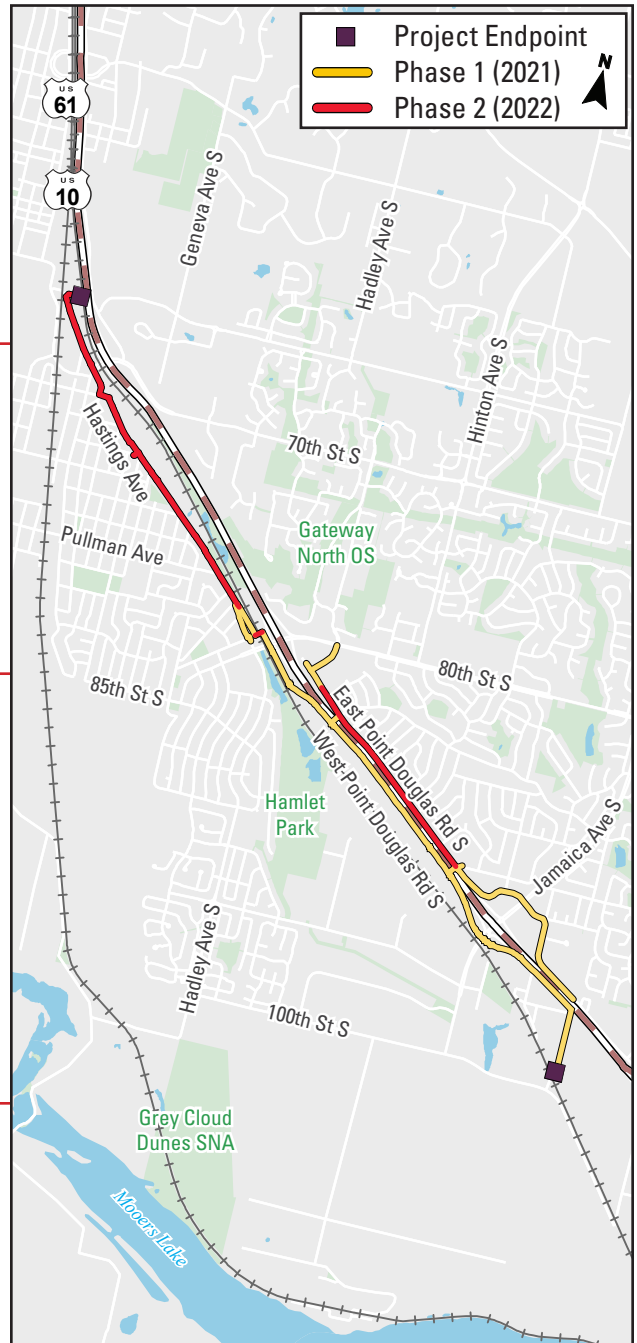

Work will begin in spring and continue into the fall. Please note that the project schedule is subject to change due to inclement weather or other factors.

Safety

Public safety is at the foundation of all we do. The safety of the public around our natural gas system influences every decision we make.

If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.
