

SOUTH WASHINGTON NATURAL GAS PROJECT

START OF CONSTRUCTION FLYER
MAY 2022
MINNESOTA

Work starting soon

This year's activities will occur in the following areas:

- Hastings Avenue, between Gary Boulevard and 1st Street.
- Belden Boulevard, between West Point Douglas Road and Hadley Avenue.
- East Point Douglas Road, between 90th Street and East Point Douglas Road.

Work will begin in May and continue into the fall. Please note that the project schedule is subject to change due to inclement weather or other factors.

Construction

During work you may notice:

- Marking of utility lines and utility survey holes.
- Road and sidewalk closures.
- Traffic control.
- Temporary changes to how you access your location.
- Construction noise.
- Parking restrictions.

We work to reduce construction-related inconveniences and will temporarily restore work areas following natural gas line installation. Final restoration will occur when conditions allow.

Overview

We are replacing 5.5 miles of natural gas lines along with multiple natural gas regulator stations to regulate natural gas pressure for the South Washington Natural Gas Project. Construction began in spring 2021 and is expected to be completed in fall 2022.

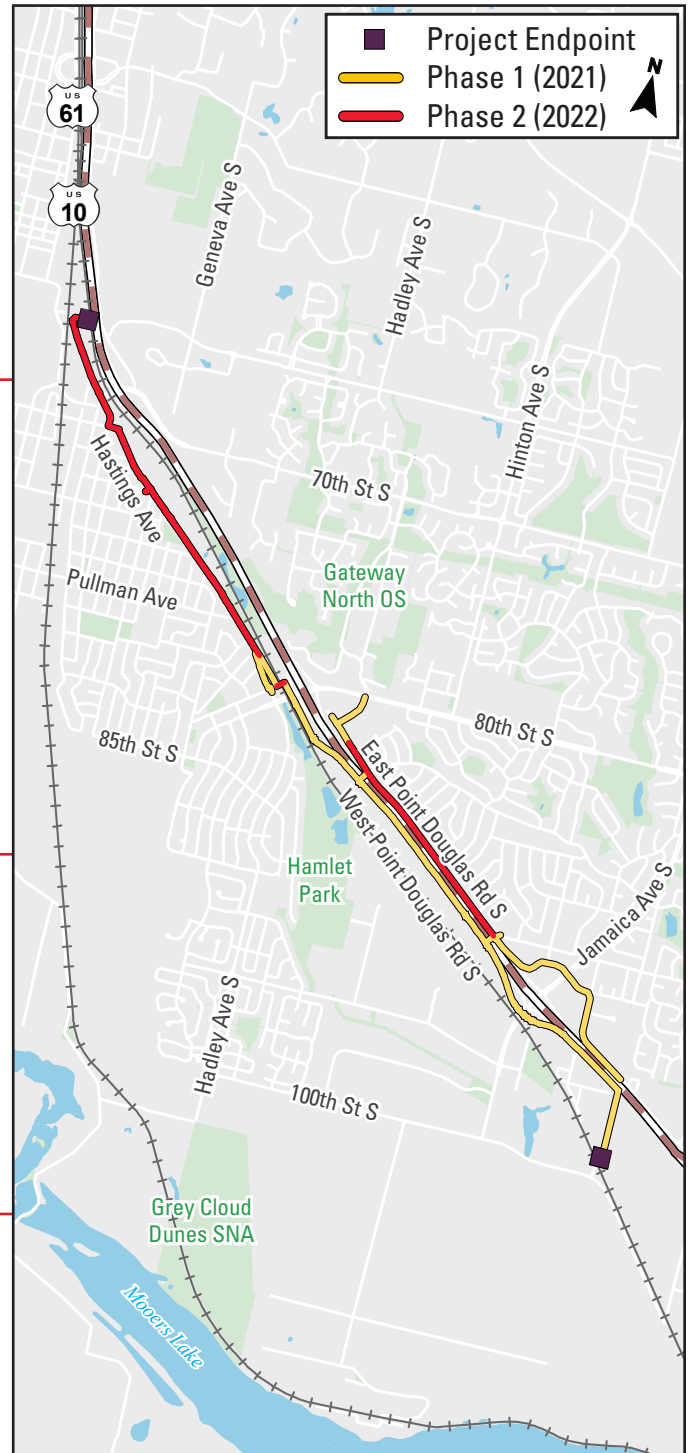

This work is our commitment to system revitalization, allowing us to continue to provide you safe, reliable service.

Safety

Public safety is at the foundation of all we do. The safety of the public around our natural gas system influences every decision we make.

If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.
